SUMMARY

Technical Leader | Scaling Organizations | AI Transformation

A hands-on technology leader with 20+ years of experience bridging the gap between Engineering, Operations, and Business Strategy. Proven track record in scaling organizations, securing critical infrastructure, and driving operational efficiency.

Specializes in building and leading high-performing technical teams at the intersection of cloud infrastructure, product roadmap strategy, and world-class customer experience — developing the next generation of technical leaders through strengths-based coaching and leveraging emerging AI technologies to solve complex challenges at scale.

Key Expertise: Product & Technical Roadmap · Cloud Strategy (Kubernetes/CI/CD) · Security & Compliance (ISO 27001/SOC2) · AI Transformation · Technical Talent Development

EXPERIENCE

VP of Platform Engineering

Health Bank One (formerly AllClear ID) | Sep 2024 – Present | Austin, TX (Remote)

- **Product Vision & Roadmap:** Drive thought leadership and technical product direction, building a comprehensive roadmap that aligns full-lifecycle SDLC, mobile app development, and infrastructure with business goals.
 - **Security & Governance:** Established a foundation of trust by attaining SOC2 Type II compliance and institutionalizing rigorous security practices, including successful penetration testing.
 - **Operational Excellence:** Lead the infrastructure and DevOps strategy, ensuring platform uptime and high-velocity delivery through modernized CI/CD pipelines.
 - **AI Transformation:** Architecting the adoption of generative AI within internal tooling and product features to significantly accelerate development throughput and product efficiency.
 - **Mobile Ecosystem Management:** Directing the end-to-end lifecycle, deployment, and management of consumer-facing applications on both the Apple App Store and Google Play Store.
-

Sr. Director of Operations

AllClear ID | Jun 2016 – Sep 2024 | Austin, TX (Hybrid)

- **Cross-Functional Leadership:** Managed a multi-disciplinary organization spanning Product, Engineering, IT, Privacy, Support, and Security teams.
 - **Operational Excellence:** Led a company-wide cost-optimization initiative including large-scale contract renegotiations, IT infrastructure modernization, and the successful transition to a remote-first work environment.
 - **Scale & Platform Migration:** Successfully transitioned over 60,000 customers to a modernized identity protection platform while ensuring zero service disruption.
 - **Compliance & Governance:** Directed the strategy and internal audits required to successfully attain and maintain ISO 27001:2013 certification.
 - **Modernization:** Led the migration from on-premise Exchange to cloud-based productivity suites (GSuite/Office365), modernizing the corporate IT architecture.
 - **Service Delivery & Partner Management:** Managed delivery partners and budget for client implementations, ensuring strict adherence to SLAs and operational quality.
 - **Specialized Investigations & Analytics:** Oversaw a team of fraud investigators and reporting experts, building an analytics function to provide data-driven insights and comprehensive internal metrics.
-

Sabbatical

Personal | Mar 2015 – Jun 2016 | Austin, TX

- Took intentional time off to pursue personal goals: mastered backyard brisket smoking, built woodworking skills, and got married.
-

Director of Fanatical Support (Cloud Automation & Launch)

Rackspace | Sep 2012 – Mar 2015 | Austin, TX (On-site)

- **Strategic Customer Success:** Led teams responsible for onboarding public cloud customers, driving product activation, and reducing churn for the top revenue quartile.
- **Architecture & Fraud Mitigation:** Consulted with enterprise clients on cloud solution architecture and developed automated systems to mitigate financial risk from fraudulent account signups.
- **Market Expansion:** Founded and scaled the Austin remote office, overseeing the physical office launch and the hiring of multiple engineering and account management teams.
- **P&L Management:** Managed a \$10M monthly recurring revenue (MRR) book of business, consistently achieving top-tier Net Promoter Scores (NPS).

Senior Manager / Team Lead / Systems Engineer

Rackspace | Aug 2003 – Sep 2012 | Austin & San Antonio, TX

- Promoted through increasingly senior roles from Linux Systems Administrator to Team Architect, serving as the final escalation point for complex infrastructure and networking issues.
-

Web Developer

DS Associates | May 2000 – Aug 2004 | Austin, TX (On-site)

- Engineered web-based 401(k) management systems and managed multi-platform server environments (FreeBSD/Windows) for client-facing applications.

EDUCATION

The University of Texas at Austin Bachelor of Science in Electrical Engineering (EE/ECE)

Activities: IEEE

LBJ Science Academy (now LASA)

CERTIFICATIONS

- ITIL Foundation Certified
- General Management Certificate — The University of Texas at Austin (Sep 2012)
- MySQL Core Certified — MySQL
- Red Hat Certified Engineer — Red Hat

SKILLS

Artificial Intelligence (AI) · Google Kubernetes Engine (GKE) · Mobile Application Development · Cloud Strategy · CI/CD · Security & Compliance (SOC2 / ISO 27001) · Product Roadmap · DevOps · Technical Leadership · P&L Management · Cross-Functional Team Leadership
